

Dear members of the Senate Committee on Judiciary,

I strongly oppose SB554, including all the current proposed amendments. As many others have testified, this bill has no intention on solving any of the problems that many proponents feel it will. Instead, it will affect those ordinary citizens that have taken the time to attend the mandatory education, background check, and finger printing by making their license to carry virtually useless. It is beyond me as to why you would want to restrict the privileges of this citizen demographic. I would think that you would want to encourage other law-abiding citizens to follow their lead so that more people are educated on the use of firearms and are able to help defend themselves as well as other citizens.

Sincerely,
Daron Prara
