

Chair Prozanski Vice Chair Thatcher

I strongly oppose SB 554. I have had a concealed carry permit for many years. I do not want to unintentionally violate any laws. The way this bill is written I would not even know I had broken the law! Some years ago I was involved in a shooting that left one dead and one wounded for life. had it not been for a armed neighbor {the one who was wounded} I would not be alive today. The shooter was a felon who stolen a rifle and said he was going to kill everyone in our small rural community. After this I feel everyone should be able to defend themselves! Please keep in mind that criminals do not obey laws, Only the honest people do and they are the ones at risk if they can not defend themselves.

Thank You Phillip Shellabarger
