

Dear committee members,

I am guessing you are not familiar with the Second Amendment of the Constitution. This bill takes away my rights as a legal citizen who has held a CCL for nearly 40 years. I see no positive reasons that this bill should pass, except for more power of the government, and control of Law abiding citizens.

I am in total opposition to this bill, and it should be thrown our now! I simply do not understand the basis for this type of restriction on Law abiding citizens.

Respectfully yours,

Lucien Gunderman
