

I oppose bill SB 554 for many reasons, but the main reason is that this bill is one of many ridiculous bills, hiding behind the words such as "schools" and "colleges" but aims to do one thing: strip american citizens of their right to defend themselves at any place during any given time. The sick and cruel people of this world who seek to harm others, don't dare prowl on those who are able to defend themselves. Instead they attack the ones who are vulnerable, "precluded" from having their right to defend themselves. To create a policy that makes it illegal to defend yourself, is not one that's interested in the safety of anyone, but instead is interested in an environment that is completely defenseless. To take away the defense to stop the offense is not only absurd but against our constitution as well.
