

I most strongly oppose this bill..

Why do you wish to make the law-abiding CHL holders into felons? The FBI statistics show CHL holders commit fewer crimes than police officers do.

This bill creates a patch work of where a CHL holders presence is legal or illegal. Gun Free Zone are simply free murder zones for those with evil intentions, police and armed security guards can't be every where all the time. And with police retirements up due to covid and failure of prosecutors to act, more dangerous persons are wandering our state.

Failure of the state to budget adequate funds to the Oregon State Police have left them understaffed as well.

Further increases of CHL permit fees only make the low income among use less able to protect them selves and the family's and there fellow citizens.
