

Members of the Judiciary Committee,

... who would vote in favor of this bill.

This proposed piece of legislation is being offered as a means to subvert law abiding citizens rights. And now you add the vile emergency clause.

So you lock us out of the Capitol and sneakily prevent us from voting on a bill that should never have even been written. Seems to me that you have a real distain for the light of day on your actions.

Who is the real criminal here? Is it the citizen who occupies the category of lowest crime rate in the Country, acquired a CHL legally and chooses to freely carry a firearm to protect themselves and perhaps others, or would it be the bully politician who took an Oath to the Constitution then proceeds to completely ignore it while raining damaging nonsense down upon the people.

SB 554 and the parade of others being proposed is pure political vengeance. NO is the only vote that would be correct for Oregonians.

God help a state whose politicians would have good people become criminals overnight for exercising their Constitutional Rights.
