

To my fellow citizens and legislators of Oregon this is my testimony on SB554. I am asking you to vote in favor of SB554 because I believe strongly that firearms have no place in public buildings. I feel less safe knowing that anyone with a permit can walk into a school or a university or a city hall with the power represented by a gun. It should not be easy for someone with a beef against the government or with government workers to walk in and start shooting. Please vote in support of SB554 and help keep Oregonians safe.
