

I strongly oppose SB 554. It is a slap to the face to law abiding citizens who have or plans to get a concealed permit. People need to realize that criminals are not gonna follow the gun laws that are being proposed. If anything this bill actually benefits criminals and punishes law abiding citizens. I see some testimonies of anti-gun people supporting this bill who are miseducated thinking this will solve anything. These people seem to be living a different reality as they don't want to take responsibility for their own safety and would rather give that responsibility to the police thinking that they're gonna save us all, so the idea having a concealed permit seems crazy to them. If a bad guy with a gun is doing harm then a good guy with a gun who has a concealed permit will stop him. Enough creating these useless "gun free zones." Why wait a long time to call police who have guns to protect us at a shooting when a person with a concealed permit can stop the bad guy right there? Especially when every second matters. We all saw how much civil unrest happening in 2020 and how police can be easily overwhelmed that they can't save everybody so it's time we stop depending on them so much. Stop letting these politicians pass unconstitutional gun laws, we need to realize that they are not doing it for safety it's all about slowing controlling your life while they strip your liberties away for it.
