

I support HB3177 with amendments to include language for the following items:

The bill should limit the Governor on all aspects of mandated conditions

There should be no mandates for:

Masks (Optional for those who want them)

Partitions (No forced isolation)

Physical Spacing (Eliminate Anti-Social Distancing)

In fact - A Constitutional Amendment should be driven to remove from Governor the ability to call an State Emergency such that Dictator or Monarchical power is bestowed upon the Governor. Our Founders fought a Revolutionary War for Independence from such Authoritarianism ! And now, with a stroke of the Pen we get a King or in our current case a Queen to rule over Oregon. State of Emergency declarations should be a Consensus Team to be determined with further discussions.

I appreciate the desire to get our Small Business' and Resturant's open - I have been calling for a wide scale "Constitutional Override" (I don't like the term Civil Disobedience - because it is the Governor that is being disobedient to the Constitution and the People).

If ALL Resturant's were to just open up, We the People would show up \$\$.

Expand the Scope of your efforts to eliminate the Governor's ability to usurp Our Rights to Life, Liberty and the Pursuit of Happiness. Do this and there will be no need for a patchwork of "Fix it" legislation.
