

I oppose SB 554 because it harms law abiding citizens. It limits those individuals with the most fire arms training from entering areas where they can protect fellow citizens and themselves. Criminals ignore gun laws. If gun laws worked than why are there shootings on school properties? When you make a law that is difficult or impossible to enforce you turn law abiding citizens into criminals. It turns out criminals ignore laws and will bring a gun into a location with the intent of doing harm. A concealed carry individual went through a lot of paper and training to carry that fire arm and they have no intention of loosing that privilege by doing something illegal. I believe society is far safer with these trained citizen roaming our streets with the intent to protect rather than criminals who's intent is likely mischievous. Thank you.
