

I oppose this bill! This is a constitutional right. I want to feel safe going into an establishment. There have been mass shootings in all kinds of places and I want to know that I have a way to protect myself, my family and others. I don't want to feel like a fish of fish in a bowl, easy targets. I don't take packing a gun lightly, it comes with serious responsibility and I know that and act accordingly. Please take this testimony into consideration.

Thank you,  
Michael Hanshew
