

I am appalled by this latest attack on the law abiding and the Second Amendment. Project exile in Virginia disarmed criminals there and was later adopted by other jurisdictions. We know this. So this is only about control and another step toward disarming the public. It is based only on malice, the undying irrational hatred of Burdick and her ilk for some of the most law abiding and responsible residents of Oregon, concealed carry practitioners. The abuse of power and disregard for the law is standard practice for the new socialist democrats who blight our state and country.
