Oregon Legislature  
House Committee on Economics  
Salem, OR

Dear House Representatives,

I urge your support of HB 3177. It's time that small, rural businesses have the same opportunities to commerce as large corporations. With the practice of physical distancing and masks, these businesses can continue to operate safely.

The effects of this shut down have forced many small, family-owned businesses in my community to close. Honest, hard working Oregonians are struggling. Please level the playing field and pass this bill!

Respectfully,

Virginia Elandt
