

I am a survivor of serious domestic violence. I felt in fear for my life, and had to move multiple times, to avoid him finding me. Restraining orders are just a piece of paper. They don't work. I learned gun safety, and would like to apply for my CHL. I do not see the point in getting one, though, if carrying will make ME a criminal. I am a survivor, and I feel safer with protection. If I am not allowed to practice my 2nd amendment rights, at all times, what is the point of having them? We are granted those rights, by the Constitution, to protect ourselves, our loved ones, and our homes. Would you feel safe, without protection or bodyguards, and walking down the street alone, knowing that a crazy or psychotic person could/would harm you? I doubt it. PLEASE do NOT infringe on my rights! Protect EVERYONE'S rights, not just those you agree with. We are your constituents. Listen to us. Thank you.
