

The problem is, most BAD people that are going to do BAD things are going to get their hand guns & an weapon illegally anyway. They are NOT going to take the time to do it legally!! So by Attacking those whom have gone through the process of getting their Concealed Weapons Permit, they had to get an extensive background check, get fingerprinted, etc, they are not the bad guys here. This is just a control issue on our governments part. There are other options people! Stop this! Please!
