

I strongly oppose this bill. It is a direct attack on our constitutionally guaranteed rights. Passage of this legislation will only work to make criminals of decent honest people. And work to make you an enemy of the people. Only legal gun owners who have been trained and had background checks are allowed concealed carry permits. Criminals will continue to posses and carry guns despite any laws you pass. This continued attack on our rights will ultimately work to bring us to another civil war. This country is more divided now then any time in history since the first civil war when Democrats refused to give up slaves and slavery. As public servants, law enforcement and military we took an oath to uphold and defend the Constitution from all enemy's foreign and domestic. So again I urge you to vote NO to this bill.
