

Oregon Healthcare Committee,

I am in support of Oregon House Bill 2390.

House Bill 2390 will remove the roadblocks that the SICKEST children in Oregon face when seeking life-saving care. It will ensure ACCESS for all children. It will empower medical providers to pursue the appropriate treatment based on the severity of the child's presentation, not whether insurance will cover the cost. It will give our children a chance of healing. STAND UP for our children and STAND UP TO Oregon INSURERS.
