

I strongly oppose this bill. The defund police movement is making our cities and communities unsafe. This bill will make law abiding citizens criminals for exercising their rights. I know of several people who have recently purchased their first firearm because of fear of the the unrest and criminal acts that have escalated in the past year. They understand they need and have the right to defend their homes and their families. Stop this bill now. If you want to stop crime, punish the criminals not law abiding citizens.
