

Hello,

I am writing in support of Oregon Senate Bill 584. It is imperative for people with disabilities to have access to healthcare. I personally know many people with disabilities that struggle to maintain work, pursue advancements in their jobs, while maintaining affordable healthcare. Oftentimes, it comes down to choosing a job, or healthcare. The current limitations in regards income place many people in a difficult position, where a promotion or a raise may make them ineligible for medicaid, while still being unable to afford reliable, effective, quality health care. I urge you to PASS Oregon Senate bill 584, to ensure that Oregon is a place where people with disabilities are well taken care of.

Thank you,
Carrie Morton
