## **No on HB 2044**

02/25/2020

Representative Prusak, Chair  
House Healthcare Committee  
900 Court St, NE  
Salem, OR 97301

Chair Prusak and members of the committee,

The Oregon Small Business Association respectfully opposes House Bill 2044 which sets a tenuous step into intruding upon the confidential and proprietary information of the private practices of Oregon's businesses.

We are concerned that this is a first step in future privacy-invading laws that will soon expand further into other businesses and other industries. It also sets the precedence for Oregon as a privacy intrusive, over-regulated state for setting up a business. Oregon should be known across the nation as a leader in helping businesses not handicapping them.
