

Please support SB 574 lane sharing. It has been very helpful in California where traffic has gotten so heavy. As Oregon has grown, traffic slow to a crawl during rush hours on the freeways, especially in Portland area. Lane splitting allow motorcycles to get out of the way of big SUV & 18 wheedlers. We can tuck in beside cars for our safety. Cars being rear ended by another car is bad, but for a motorcyclist it can be fatal.
