

This will save the lives of untold hundreds of motorcyclists that have been "rear ended" by the four wheeled vehicles on the road today, ESPECIALLY METROPOLITAN AREAS!!! I myself was nearly been killed at a red light, I offset my stopping point and the other driver nearly rear ended the stopped vehicle in front of me, he "just didn't see me" this will allow me to use the stopped vehicle as even better "cover" from other negligent drivers without fear of being cited for my actions. PLEASE ENACT TO SAVE LIVES!!!!
