

Chair Beyer and members of the committee:

I fully support the aims of SJM 5. It is important that Oregon be among the first states to go on record urging Congress to pass federal legislation to address the threat posed by climate change.

However, I urge the committee to look more closely at page 1, lines 20-22. This sentence or phrase makes no sense as written, apparently because of a drafting error. I suggest that the committee amend SJM 5 to clarify this language before sending it to the Senate floor.

Respectfully,
