

Dear Chair Holvey and Members of the Committee,

I, Anne Dolan, strongly support HB 2574, which allows for a natural organic reduction (NOR) of remains. As someone who cares deeply about the climate and fears for my grandchildren's future, I feel this is a more environmentally friendly and sustainable option for Oregon and for our world. Oregonians have been on the forefront of caring for the environment, such as with the bottle bill. The state of Washington is already doing this, as, I believe, is California.

For our children and grandchildren, I ask for your support of this important legislation and thank you for your hard work.

Sincerely,

Anne M Dolan
