

I respectfully request your support of SB574. Please vote YES on SB574. As a new motorcyclist I'm always looking in my mirrors to see who is not paying attention, who is on their phones instead of on the road. I keep my motorcycle in 1st gear so that I can get out of the way quickly if a driver isn't paying attention. I would absolutely feel better if we can legalize lane splitting so I can focus more on riding instead of worrying about the driver behind me texting and driving.
