

A right delayed is a right denied.

This bill, as written, opens the door for the possibility of a lawful purchaser of a firearm to experience an unlimited delay while trying to exercise their 2nd Amendment rights by legally purchasing a firearm. The proposed amendments to ORS 166.412 are unjust and unconstitutional, and you all know it, as they open the door for OSP to have unlimited time get back to a gun dealer regarding the background check on the purchaser.

You must oppose this bill if you are to hold with integrity to your oath as elected officials.
