

Chair and committee members, thank you for taking the time to read my testimony. My name is Blake Wood and I live in Curry County. I am opposed to HB 2543 because I believe this is a direct violation of my 2nd amendment rights. I don't think it is right to deny and/or indefinitely delay for no justified reason a law abiding citizen the right to purchase a firearm. I speak from personal experience. I've personally been delayed for over 5 months and there's no way to check status of a purchase because my calls to the state police have never been returned.

Thank you for your time

Blake Wood
