

I support this bill.

I believe it is safer to slip lanes due to more aggressive traffic and population in Oregon. We as motorcyclist must be aggressive when riding. Out of 1-3 drivers on the road are on their cell phones. I've done this test multiple times. (Looking at each car and seeing how many are on their phones) we must have a out. It's safer for us to cruise through when other cars are stopped. Our air cooled bikes offer over heating which causes more traffic. Our body's over heat when stoped. Spitting lanes = more protected gear when riding. I support bill SB574

Thank you.
