BACKGROUND:

According to the Oregon Department of Agriculture, there were over 37,000 farms in Oregon in 2020, covering almost 16 million acres. Natural disasters such as drought, flood, heat wave, winter storm, wildfire, pest infestation or other natural phenomenon have negatively impacted farmers and ranchers in Oregon in myriad ways, by damaging crops and livestock and leading to a loss of income. The Oregon Department of Agriculture envisions serving the agricultural and food sectors to maintain and enhance a healthy natural resource base and strong economy in rural and urban communities across the state. Senate Bill 892 directs the State Department of Agriculture to establish a forgivable loan program to provide financial assistance to farming and ranching producers in Oregon with lost gross farm income in calendar year 2021 due to qualifying natural disasters.
