

Vote No 571

Dear Committee Members,

Because this is a poorly thought out Bill it should be rejected.

Felons lost this Right in our State for a reason, "If you're not willing to follow the law, then you should not have a role in making the law for everyone else, which is what you do when you vote — ..." we do have certain minimum, objective standards of responsibility and commitment to our laws that we require people to meet before they are given a role in the solemn enterprise of self-government. People who have committed serious crimes against their fellow citizens don't meet those standards." Heritage Foundation.

Because this is a POORLY thought out Bill it should be rejected.

Set a pathway for Felons to have their RIGHT TO VOTE again. Once they have paid their debt back to society and steps have been taken restore this most Important Right!
