**BACKGROUND:**

Volunteer firefighter is defined in ORS 652.050 as "a person who performs services as a firefighter for a regularly organized fire department and whose work hours and work shifts are voluntary and whose volunteer service is not a condition of employment". To qualify for the proposed credit, a volunteer firefighter must provide volunteer services during the tax year to: a regularly organized fire department, a rural fire protection district, a municipal corporation, or any other public or private safety agency that provides fire fighting services. The taxpayer must also complete at minimum two specified actions as a volunteer firefighter during the year. According to the Oregon Volunteer Firefighters Association, Oregon has about 8,760 volunteer firefighters.
