

To Whom It May Concern:

My husband & I own the commercial property at 3766 S. Pacific Hwy. We bought this property in 1973. We had 3 rentals that were all destroyed in the Alameda Fire. We always insured these rentals for all these years. In 2015, after, not renting the main 2 buildings for over a year, we finally had a gentleman that wanted to rent the two buildings, he was a nice man with Supreme Credit. We were concerned, because he had a marijuana business. He let us know when all of the legalities & rules necessary to licence his business were accomplished with Jackson County & Oregon State Law. We contacted our Insurance Agent, at Farmers Insurance. He said Insurance Company's would not insure a marijuana business. We needed to rent the buildings, so we rented to him. A little later we were able to fill the other facility with a good man. We were so... pleased that both of these people were always on time, or paid 2 months ahead. After this disaster, we had lost \$2,250.00 income per month & are now living on \$1,924.00 per month our Social Security. Although, in June of 2015, my husband was diagnosed with Chronic Lymphoid Leukemia. I Also, had been diagnosed with Epstein Barr & Fibromyalgia. We both have bad backs & were wondering what we could do to rebuild, as I'm 72, & my Husband 74 years old. I know none of us know how long we have here on earth, but, if he dies first as a Widow I will only have Social Security, my Mom lived to be 96, so I have good gene's, Mom was in an Assisted Living facility & then home with family. We need to rebuild, so, we can rent again, or to sell it for a higher price, if anyone has idea's or knows some people that can rebuild for us we'd be so appreciative.

Thank You For Your Time  
God Bless All Of You,  
John & Cheryl McGonagle
