##### **BACKGROUND:**

Pharmacy benefit managers (PBMs) are intermediaries between health insurers, pharmacies, wholesalers, and manufacturers. Most health insurers contract with PBMs to provide third-party administrative services for the insurer's pharmacy benefit. House Bill 2185 (2019) imposed a number of requirements on PBMs operating in the state, including prohibiting the requirement that prescriptions be filled via mail order pharmacy and limiting the retroactive denial or reduction of claims.

The State Emergency Registry of Volunteers in Oregon (SERV-OR) is a database of health care professionals, including physicians, nurses, pharmacists, Emergency Medical Technicians (EMTs), behavioral health providers, respiratory therapists and others who serve in response to emergencies. Providers who are licensed in another state may practice in Oregon upon declaration of an emergency.

Senate Bill 1529 A applies the pharmacy benefit manager requirements established in HB 2185 (2019) to all contracts entered into, renewed, or extended on or after January 1, 2021, and contracts automatically renewed on or after January 1, 2023. SB 1529 A also allows the Oregon Health Authority to declare a health care emergency and to deploy SERV-OR volunteers.
