

Vote Yes on SB 1556: Caregiver Certification and Registry

SB 1556 will:

- Create and phase in a certification for caregivers in in-home care and community-based care settings (assisted living, memory care, and residential care facilities).
- Create a publicly-accessible registry that consumers and others can use to confirm that a caregiver's certification is current.
- Create a foundation for a career ladder to encourage job mobility and advancement for caregivers, helping to reduce turnover.
