Analysis:

This fiscal impact statement is for the purpose of transmitting the measure from the Senate Committee on Natural Resources and Wildfire Recovery to the Joint Committee on Ways and Means.

This measure implements the Private Forest Accord. The measure directs the Oregon Department of Forestry (ODF) to enact a single rulemaking package consistent with the requirements outlined in the Private Forest Accord Report. This measure includes numerous changes to the existing Forest Practices Act.

This measure directs ODF to adopt by rule a Small Forestland Investment in Stream Habitat Program to provide grants to small forestland owners. This measure establishes the Small Forestland Investment in Stream Habitat Program Fund, separate and distinct from the General Fund, and continuously appropriated to the State Forestry Department to be distributed by the newly formed Small Forestland Owner Assistance Office.

The measure also establishes the Private Forest Accord Grant Program. The measure establishes the Private Forest Accord Mitigation Subaccount within the existing Oregon Conservation and Recreation Fund, with funds to be used for outreach to help improve riparian areas. The measure outlines reporting requirements for moneys in the subaccount.

This measure contains a blank General Fund appropriation.

The Legislative Fiscal Office notes that the rulemaking procedures described in this measure are not pursuant to the Administrative Procedures Act. This measure exempts ODF from state procurement regulations for work related to landslide modeling, which has an unknown fiscal impact. Additionally, the Private Forest Accord Report governs sections of this bill and has not yet formally been released; that there may be changes to the fiscal impacts noted below once the report is published.

Estimated costs and position needs related to this measure are included below. All numbers are agency-reported and have not been evaluated by the Legislative Fiscal Office.
