Be It Enacted by the People of the State of Oregon:

SECTION 1. (1) The State Board of Education shall adopt by rule procedures for the Department of Education to investigate and resolve allegations of violations of state or federal law, as specified under subsection (2) of this section, regardless of how the department becomes aware of the alleged violations.

(2)(a) Rules adopted by the board under this section must allow the department to immediately investigate allegations that a school district or an education service district has violated a state or federal law if the department has reasonable cause to believe that failure to immediately correct the violation may:

(A) Result in physical harm to a student, employee or volunteer of the school district or education service district;

(B) Cause a student to be denied five or more full or partial instructional days, whether provided in person or virtually or any combination thereof, as compared to the majority of other students who are in the same grade within the student's resident school district;

NOTE: Matter in boldfaced type in an amended section is new; matter [italic and bracketed] is existing law to be omitted. New sections are in boldfaced type.

LC 228
(C) Cause a student to be denied 10 or more full or partial instructional days that are provided in person, as compared to the majority of other students who are in the same grade within the student's resident school district; or

(D) Cause risk of significant harm or substantial interference with a student's ability to safely access public education because the violation subjects a person to discrimination, as defined in ORS 659.850.

(b) For the purpose of paragraph (a) of this subsection, calculations of denied instructional days:

(A) Must include any full or partial instructional days denied before an investigation is commenced or completed.

(ii) ORS 433.235 to 433.284 or 433.441 to 433.452;

(iii) A court order; or

(iv) A written treatment plan from the student's licensed health care professional.

(A) Make any reports required under ORS 339.370 to 339.400 or 419B.005 to 419B.050;

(ii) Restore, within five school days, access to instructional time in a manner that is consistent with the majority of other students who are in the same grade within the student's resident school district. Instructional time must be provided in person unless providing instruction virtually is consistent with the majority of other students who are in the same grade within the student's resident school district.

(b) Notwithstanding paragraph (a)(C)(ii) of this subsection, a school district or education service district may request the Superintendent of Public Instruction to waive the requirement to restore access to instructional time if, within three school days of receiving the written notification described in this subsection, the school district or education service district provides documentation that:

(A) The reduced instructional time should not be calculated as provided by subsection (2)(b)(B) of this section; or

(B) The school district or education service district complied with all of the following:

(i) Giving the written notice described in ORS 343.159 prior to the initiation of the reduction of instructional time or restriction of access to in-person learning as compared to the majority of other students who are in the same grade within the student's resident school district;

other students who are in the same grade within the student's resident school district;

(iii) Satisfying the requirement of a signed acknowledgment, as described in ORS 343.161 (4)(b), that is current and was executed prior to the reduction of instructional time or restriction of access to in-person learning as compared to the majority of other students who are in the same grade within the student's resident school district;

(c) Nothing in this section requires the department to officially commence an investigation before taking an action described in this subsection.
