

Submitter: Kathy Lincoln

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: SB1558

I fully support SB 1558. As the owner of an electric car, I appreciate how efficient they are in stop and go traffic. No fumes while idling; no in-efficient transmission changes when getting up to speed again. They are quick, quiet and clean. Electric vehicles are perfect for the type of driving required by delivery vehicles. In the long run, they will save money in fuel and maintenance. We need to do everything we can to encourage (or require) these types of services to use non-emission emitting energy. Thank you.
