

Submitter: Bill Harris

On Behalf Of:

Committee: House Committee On Environment and Natural Resources

Measure: HB4058

House Committee on Environment and Natural Resources:

I am writing in support of passing HB4058

It is imperative that we move fast to diminish rapidly the Oregon Share of green house gasses released to the atmosphere.

To succeed we need to mitigate the impact of heat on the frontline and especially vulnerable people served by the Oregon Health Plan.

This program is designed to manage hot weather in vulnerable houses and heat dome areas which kill vulnerable people.

Sincerely

Bill Harris
