

Submitter: Rick Miller

On Behalf Of:

Committee: House Committee On Environment and Natural Resources

Measure: HB4130

I strongly support this measure. Europe has been creating safe corridors for animals to travel clear of infrastructure for many years. We are far behind in this practice which is obviously humane for animals, but positively impacts our safety in road travel as well. I am aware of one project completed a few years ago in Bend that has had a beneficial impact. I urge your support on this measure.
