

Submitter: Tiffany Hartley

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB1521

Absolutely not! You are saying that you don't trust the individual communities to work together to do what's best for their children and community. The decisions regarding are children are in our hands NOT yours! We vote, we communicate and we are the ones involved in the day to day happenings and you want to give control to some one at the state level who has most likely never even been to the schools. Stop the tyranny, we wont bow down!
