

Submitter: Forest Resener

On Behalf Of:

Committee: House Committee On Revenue

Measure: HB4115

The people of Oregon are speaking out about climate change and the use of public funds. We're frightened to face a future of worsening climate catastrophes and we will continue to fight the investment of public funds in any activities which produce CO2 - namely investment in fossil fuels. Oregon must be brave and take action today to lead the way for the rest of the nation, and maybe even the world. We need to do what's right. Help Oregonians understand what their public investments are being used for: Pass the Treasury Transparency Bill (HB4115)
