

Submitter: Nick Haskins  
On Behalf Of: Josie Parker  
Committee: Senate Committee On Health Care  
Measure: SB1530

Dear Committee Member,

As an Oregon resident who cares deeply about those struggling to build their family in our state, I strongly urge you to pass the infertility insurance bill before you, which will help Oregonians build their families when faced with cancer or other conditions that can cause infertility. Oregon families need your support now.

I need your support, along with the 1 in 8 couples in our state living with the disease of infertility or the thousands of Oregonians diagnosed with cancer during their reproductive years.

I was diagnosed with infertility in my 20s and the cost of the whole journey proved too much for myself and my husband, both financially and mentally. After exhausting our nest egg on some of the cheaper fertility treatments. We never conceived. We eventually fostered to adopt.

It is time for Oregon to update its insurance laws to include coverage for the standard of care for patients with infertility and those diagnosed with cancer or other conditions that may cause infertility. By passing this pro-family legislation, Oregon will join 19 other states across the nation that help hardworking families get access to medically necessary treatments while only minimally impacting insurance premiums, if at all. States with IVF insurance have lower rates of multiple births than states without IVF coverage, and lowering multiple births decreases overall health care costs and results in healthier babies and healthier moms.

Please support Oregon families by moving this pro-family bill forward. Thank you!

Sincerely,

Josie Parker
