

Submitter: Mary Rarick

On Behalf Of:

Committee: House Committee On Education

Measure: HB4124

As someone who has worked with a team to design national standardized tests, I understand their usefulness. As a former classroom teacher I remember so many standardized tests getting in the way of actual teaching. As a parent it was difficult to watch one of my children who always struggled with the anxiety that accompanied testing. I support reviewing all of the required standardized tests so that duplicate testing can be eliminating and best practices can be determined.
