Re: YES ON HB 4006, Simply time for Fair Pay.

Dear House Health Care Committee,

My name is Kellie Raydon, and I am a Naturopathic Doctor (ND). I would like to share my experience working in Oregon as a licensed ND and ask you to please support HB 4006.

I love helping people, which is why I have sacrificed years in medical school to become a licensed physician and practice medicine in my local community. I love connecting with people whatever perspective they come from and helping them both understand their medical condition(s) and successfully implement a plan to move their health forward - just like any other medical provider on the health care team.

I typically manage the majority of healthcare needs for my patients, which often includes annual physicals, lab orders, health screenings, and prescription(s). I also make referrals to other competent providers and specialists when appropriate. In addition, I teach my patients about diet and nutrition, how to stay active, manage stress, improve their sleep and become more proactive in their own healthcare. These nutrition and lifestyle recommendations create a more complete long-term care plan that ultimately results in cost-savings and better health outcomes for my patients.

Unfortunately, NDs are not being fairly compensated for our valuable contributions to healthcare. This makes it more difficult for people like me to stay in practice and deliver this essential, desired, and unique level of care. The state is allowing private insurance companies to limit access to healthcare for patients and their families in the community.

For those of us who have been able to choose to stay in the plans, we do so at a great economic disadvantage to our peers, making it difficult to repay student loans, support staff and their families, and give back to the community. One option is moving to an all-cash model that most people cannot afford, the other option is to finally pass HB 4006.

Sincerely yours,

Kellie Raydon, ND, L.Ac.
