

Submitter: Heidi Napier

On Behalf Of:

Committee: House Committee On Education

Measure: HB4029

Please don't pass this bill. It takes control of schools away from parents and local communities and gives it to the ODE. It is a move toward the Soviet style of education. Public schools are already losing students to home schooling and private schools, and this bill will result in more students being pulled from public schools. Stop the politicization of public education and go back to basics--reading, writing, arithmetic and history. No CRT, no "equity" and no catering to minorities. It is racist to treat people according to their skin color or ethnicity.
