RE; YES on HB4006

Dear House Health Care Committee.

My name is Rick Burrill. I am a patient of a naturopathic Doctor and fully support HB4006. With my naturopathic doctor, they are able to substitute any medication that my MD can prescribe and yet often saves me money with being able to use more natural methods and medicines. It makes no sense to me that my naturopathic doctor can prescribe that same as my MD but they don't get paid for doing so by my insurance carrier. Please support the passage of HB4006.

Sincerely,

A handwritten signature in black ink, appearing to read 'Rick Burrill', with a stylized flourish at the end.

Rick Burrill
