

Re: YES on HB 4006. I am a patient and support my Naturopathic Doctor.

I am a patient of a Naturopathic Doctor. I am writing to ask your support of HB 4006.

My Naturopathic Doctor has been instrumental in restoring my health when Medical Doctors have been unable to do so. She took time to listen to my concerns and health issues, did proper testing and developed a treatment plan that was very healing to me. It was a financial hardship to pay out of pocket to see the Naturopathic Doctor after paying insurance premiums but I knew if I wanted to recover this was necessary for me.

ND's must be accessible to all and their services should be covered by insurance plans so this is possible. Naturopathic Doctors are very well trained and their expertise and experience invaluable to patients.

I urge you to vote YES on HB4006 to ensure fair access to licensed Naturopathic Doctors.

Sincerely,

Sandy Funk
