

Submitter: Jon Bowdoin

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure: SB1589

I strongly oppose this bill.

I also strongly object to the continual use of our limited government resources in focusing on this topic each year. This is driven by very small but vocal special interest groups that only care to expand on their own waterfront sanctuaries/privileges, at the detriment of the many other working families in our local communities that desire to enjoy our public waterways.

Thank you

Jon
