

Submitter: Kristi Tomlin
On Behalf Of:
Committee: Senate Committee On Education
Measure: SB1521

I am a public school teacher of 16 years. I have increasingly been alarmed at how policy from tyrannical superintendents has harmed STUDENTS the very most. Political policies are ruining rigor, classroom environments, and quality of instruction. As a parent, I would HOPE we can remove corrupt and ineffective superintendents swiftly, aptly done to better serve children and families. Superintendents are there not to be a GOVERNOR'S minion of policy or hoard funds for political purposes...they are there to help facilitate proper district function geared toward quality education. Something that is lacking in every district around this state. Vote NO.

Also--where are SITE COUNCILS? TRUE PARENT AND COMMUNITY insight and votes? This tyrannical stance in legislature, ODE, OHA, and the Governor and SOS Office needs to STOP.
