

Submitter: Katharine Elizabeth Hunt
On Behalf Of: Raging Grannies Eugene
Committee: House Committee On Revenue
Measure: HB4115

Climate change is creating challenges for Oregonians including over 40 Raging Grannies in Lane County. Last summer we along with others in our communities (especially our unhoused neighbors) suffered from a terrible heatwave. How is our money that the Treasury controls contributing to this crisis??

A number of us are also members of PERS. We support Treasury Transparency Bill (HB 4115) as it will ensure that the Treasury will publicly release information about how they are investing our funds.

Transparency is at the heart of Oregon's climate fight. It will encourage the Treasury to examine how they are investing our money so they can begin the divestment in fossil fuels and the real investment in the health of the planet.
